

Policy for St. Mary's Hospital:

To assist with our current COVID-19 situation, please make your way to the main entrance of the hospital. If the front door remains locked, call the Labor and Delivery Department at 706-389-3300 and notify them of your arrival. Someone will come down to assist you, personally, to your room while assuring that your significant other parks and takes care of any additional tasks necessary.

Current hospital policy directly involving Labor and Delivery allows TWO visitors throughout the hospitalization. Visitor number 1 is a permanent visitor and is allowed for delivery and after. They do not have to leave when visiting hours are over. Hospital visiting hours are 7AM-7PM. Visitor number 2 is allowed to be there for the delivery and must leave 1-2 hours after if the delivery is outside of normal visiting hours. Person number 2 can rotate during visiting hours (not during delivery) but the waiting rooms are closed so visitor number 2 must go down to the main lobby to switch with the next person. The new baby's siblings are allowed to visit during 9AM-11AM or 3PM- 5PM. No other children are allowed to visit. The children do not count as the second visitor but whoever brings the children, will be considered the second visitor at that time.
